

PPA Int'l, Inc.
Model # HDMI3X1C
Item # 7075

Introduction

Perfect for home theater systems and computer users, the 3 port HDMI Switch w/ built-in Cable by PPA provides a clutter-free environment, eliminates the need to disconnect and reconnect HDTV devices, and allows convenient toggling between different sources using either an intelligent or key press option. Single HDMI video display sharing allows quick, seamless changes between DVD, Blu-ray, Satellite Set Top Box, XBox, PS3, HD Antenna, PC, etc...., while 3D support takes gaming and movies to a powerful new level in home entertainment. In the ever-changing world of high definition, no other similar product performs better!

Features

- Supports resolutions up to 1080p
- HDCP pass-through
- Supports uncompressed audio (LPCM)
- Supports 3D format 1080p at 23.98/24Hz, 720p at 59.94/60/50 Hz
