

Bluetooth Adapter

Model: PPA 9017V
UPC: 833250009017

Wireless connectivity made easy! Specifically designed to plug in to any available USB port, *PPA's* USB Bluetooth dongle connects to desktop PCs, Notebooks, or any other USB host device running under a Microsoft Windows platform. Simple to use, the Bluetooth dongle quickly enables your PC or Notebook for point to multipoint connection with other Bluetooth devices, such as personal area network (PAN), cellular phone, or PDA. Using secure short-range radio waves to transmit voice and data simultaneously, it's the perfect solution, helping you meet all your wireless needs.
